

Mike Holmes Gives Harmony Builders Stamp of Approval

REGINA, SK, July 6, 2015—Harmony Builders is proud to announce that it is now officially a HOLMES Approved Homes Partner Builder.

Harmony Builders joins the ranks of some of the industry's top homebuilders by providing homebuyers with the HOLMES Approved Homes Program, started by trusted contractor, Mike Holmes.

"This is about doing what's right," stated Mike Holmes. "Harmony Builders have integrity. They build it right and my inspectors make sure of it."

The Program represents a new standard in home building where durability, energy-efficiency and long-term protection become top priority during a series of key home inspections throughout construction, in order to provide homebuyers with added security in their investment.

"I can't tell you how many emails I get from people who want me to build their home," added Holmes. "But I'm just one guy—I can't help everyone. The HOLMES Approved Homes Program is how I can and Harmony Builders are helping me do that. They're one of the good guys."

Harmony Builders will be building its homes to meet specification requirements outlined by the HOLMES Approved Homes Program. They will also be providing homebuyers with the options of two additional packages within the Program, where product and material upgrades can be made to include extra fire-moisture- and mould resistance, sound protection, higher indoor air quality and heat recovery systems.

"Harmony has always been above industry standards building homes that last a lifetime," states Katrina Stettner, owner of Harmony Builders. "We are very honored and grateful to be recognized by Mike Holmes as a trusted builder who cares and does things right the first time."

Harmony Builders have been awarded the Customer Satisfaction Award, the Single Family Sales Volume Award, and the Best Production Home 1500 to 1799 sq. ft. Award by the *Regina & Region Home Builders' Association*.

ABOUT HARMONY BUILDERS

Harmony Builders knows that without our clients, we wouldn't have a business. That's why we always put every need of the clients as top priority. It's our goal to make sure each and every client has a stress-free, enjoyable, and harmonious home building experience. Harmony Builders offers the highest standard of quality at a lower price than you will pay with many other home builders.

ABOUT HOLMES APPROVED HOMES

The HOLMES Approved Homes Program integrates proper building practices with cutting-edge products and technology in order to develop customized building specifications that go above and beyond residential standards, from construction to final inspection. Through key partnerships with industry-leading builders who implement these building specifications under the Program, Mike Holmes has taken his mandate in new-home construction and made it available to homeowners across the country.
